

GLOBAL **2024**

BRING ON SUMMER

We love the outdoors all year round, but there is just something special about Summer.

Whether it's waking up at the crack of dawn to get to the boat ramp before everyone else, or learning that new trick on your wakeboard before your mates or maybe it's just cooking a few snags on the barbie by the river, however you do Summer is perfect.

We'll see you out on the water.

**Close off Friday
25 August 2023**

SINCE 1986

For 37 years we have been providing top quality water safety equipment to ensure that everyone can enjoy their time safely on the water.

Our #1 focus, from Day 1, has been safety. Whether it is a life vest to keep you safe whilst wakeboarding, venturing on a PWC, or a wetsuit to protect from the cold weather conditions or UV50+ protection with a hydro tee, we innovate to make life much more fun by providing premium quality water safety equipment for you and your crew that is comfortable, long lasting and keeps you looking good.

With high quality products designed to last, we emphasise long product lifecycle over fast fashion. We use a non-petroleum alternative to neoprene in our wetties, johns and tour coats and are constantly looking for more sustainable options throughout our product range and supply chain.

The only thing better than heading out on the water, with perfect weather is coming home safe at the end of the day.

THE JETPILOT FAMILY

At Jetpilot, our goals are not just to sponsor the "World Champion." We want to support athletes that embody what it is to be a part of the Jetpilot family, we want those riders who absolutely froth the sport and water-loving lifestyle! Whether it be wakeboarding behind a boat or at a cable park, or even winning in the streets, or PWC racing, or even just being a professional outdoors adventurer, we love passionate people and we want to see them succeed. Don't get us wrong, there is no-one more stoked than us when we see our athletes claim that #1 spot.

WE ARE INNOVATORS

We are driven by the desire to be the best in class and create products that let you chase the good times in the sun and out on the water.

Jetpilot proudly offers a wide range of industry first and premium product features that meet or exceed the most stringent Australian, British (ISO) and CGA (Coastguard) standards. The technologies and innovations highlighted on these pages, are just some of the core elements within the range that allows Jetpilot to offer you the best and safest products on the market.

FEATURING INDUSTRY FIRST

HIDDEN SUPERGRIP PATENTED

Some of the best innovations are the most obvious, in hindsight. Our patented Hidden Supergrip handles, turn our jackets into all around all-stars.

BUILT IN/REMOVABLE **PRO-TECH** IMPACT PROTECTION SYSTEM EN 1621-2 2014 LEVEL 1 APPROVED

Back protection is mandatory in PWC racing, that's why we invented our patent pending Pro-Tech removable impact protection system.

POV CAMERA MOUNT

Our patented POV camera mounts let you get up close and personal, without missing any of the action.

REFLECTIVE SAFETY TAPE

COOL CELL FOAM

JET-LOCK SEAM

HYDRO SEAL ZIPPERS

WATER RESISTANT

BREATHABLE

UV PROTECTION

Our garments provide the absolute best UV protection.

POLARISED LENSES

All of our glasses and goggles are equipped with polarised lenses.

FLOAT TECH

All of our glasses and goggles have built-in floatation technology.

AIR FLOW

Our race-engineered air-flow system helps to keep riders cool.

DRY SAFE

Our dry safe range will keep all of your gear protected around the water.

SMART TOUCH

Our gloves are equipped with smartphone friendly fingertips.

JET-LOK STITCH

Our Jet-Lok Flat Seam Stitch offers comfort and durability, improving the lifecycle of our wetsuits.

FSC

All of our swing tags are made from FSC responsible sources.

360 STRETCH

When performance is key, our 360 stretch material is king.

FLEX-LITE ULTRA

Our Flex-Lite Ultra fabric is designed to last, built tough without sacrificing comfort or durability.

ECOPRENE

Made from recycled plastic bottles, our Ecoprene fabric offers a sustainable, neoprene alternative.

TER SHELL MADE FROM **RECYCLED** PLASTIC BOTTLES

TRADITIONAL NEOPRENE

THE PROCESS

Recyclable plastic bottles are turned into pellets, which are spun into yarn and used to create our recycled ecoprene.

Sustainability certified

SUSTAINABILITY

MADE WITH **ECOPRENE**

Our Ecoprene vests, on average, save 10 plastic bottles from entering the ocean.

Here at Jetpilot, we are committed to transitioning more and more products to be eco-friendly and use Ecoprene. By next summer, we are aiming to have at least 70% of our range using Ecoprene.

ECOPRENE

LIMESTONE NEOPRENE

A NON-PETROLEUM BASED ALTERNATIVE

WARMER ♦ LIGHTER ♦ MORE FLEXIBLE ♦ MORE DURABLE

A neoprene developed from Limestone (calcium carbonate) rather than petroleum based that has set the standard in neoprene. Used in all Jetpilot neoprene products (long johns, tour coats and wetsuits).

Warmer – Due to nitrogen cells captured in neoprene during Limestone processing treatment providing better thermal insulation and heat retention.

Lighter – Micro bubble structure created during processing helps to ensure water doesn't penetrate or weigh down the neoprene.

More Flexible – Not only is the makeup of Limestone Neoprene more stretchy, it retains its form over time, meaning it won't stretch out from the original fit, season after season.

More Durable – Less prone to tears due to cell construction in neoprene creation.

JETPILOT

QUINTEN BOSSCHE WORLD #1
RACING WITH WORLD CHAMPION RX TECHNOLOGY

RX VAULT

JTPLT 

THE **NUMBER 1** RACE GEAR IN THE WORLD

HERE'S TO THE CUP

PATTAYA CITY, THAILAND

The Jetski World Cup is the biggest event of the year. With the biggest prize purse of the year, the entire global Jetski racing community showed up in full force.

Held over 4 days, we saw multiple world champions crowned and some unfortunate heartbreak moments.

Our Jetpilot team riders shone bright throughout the entire event. There are too many fantastic results to list, but safe to say that we have a few World Champions as part of our team.

We are honored to be able to support these world class athletes and help them achieve their goals.

Between the highs and the lows, being fully immersed in the local culture, this was an event that we will never forget.

THE FUTURE OF RACING IS HERE

PRINT ISN'T DEAD

In this fast paced digital world, to create a print publication might seem like a mistake to a lot of people, but looking at the success of the Copy Cats Club makes a very compelling argument for the print industry.

Always at the forefront of trends and design, Sina, the creator of the Copy Cats Club, has created a place for all female riders to gather and build a community of like-minded forward thinking shredders.

At Jetpilot, we are thrilled to be working with Sina, taking her vision and creating a vest that will be at the forefront of design and fashion for another year.

CONEHED TECHNOLOGY™

Conehead Technology™ allows us to build a lightweight helmet with a more comfortable feel, without compromising your safety.

IMPACT

Impact force directed towards head.
Head pushing in opposite direction.

IMPACT

On impact the cones compress, directing the energy and force sideways withing the foam.
As the base of the cones compress, they gradually slow down the head.

OUTCOME

Impact force directed towards head.
Head pushing in opposite direction.

PERFORATED AIRPRENE

Internal padding has been ergonomically designed to keep your head safe in advanced comfort. Our Perforated Airprene liner increases water release and draining, reducing drying time.

DUAL DOT- ECE 22-05 APPROVED

SIZE CHARTS

There is nothing worse than having the wrong fit. Well there are a few things that are worse, but we have made extensive size charts to ensure that you get the correct fit the first time, every time.

Everyone and every body is different, please use these size charts as a guide only.
